

ST New Product 產品快訊-【2007/05/31】Brand new design of SUPERTEC GRINDMASTER, 3-axis Complex CNC Grinder. / GRINDMASTER 劃時代三軸複合式內外圓 CNC 磨床

【SUPERTEC】Accuracy requirements of this kind of grinding machine are extremely high. It is not easy to be produced. For now European makers, such as **Studer** and **Kellenberger**, are the leaders of this kind of grinding machine. Surely, you can see some Japanese and Taiwanese products in the market as well. Thought there are many makers, but the ideas of design are almost the same. **Twin-head on same axis**, and **turret with four spindles** are typical designs of this kind of grinder.

With 54 years of grinding experiences, **SUPERTEC** started research and design from the users' point of view. Doing our best to develop high precision grinder with the best accuracy performance and lowest cost to meet the requirements of customer.

Please refer to the e-Catalogue for more detail information of GI-150NC/CNC. Or please contact Supertec sales for more information. sales@supertec.com.tw

【主新德】主新德推出劃時代的三軸複合式研磨機 GRINDMASTER，此類產品由於要求精度高，製造困難度很高。目前全世界市場由歐洲大廠 Studer、Kellenberger 等大廠所把持、主導，日本、台灣也有廠商開發此類型產品，設計理念多以雙主軸單移動軸設計或是單軸多磨頭旋轉砂輪頭設計為主。目前國內正值製造業全面技術升級之際，需求此類產品殷切。本公司基於滿足市場的需求，從客戶使用需求著眼，並在根留台灣、放眼天下之經營策略下，決定全力投入開發此產品。除了滿足市場最終使用者的需求，並達成本公司產品升級之目標外，也希望能帶動相關產業的技術升級，並達到進口替代的效益。

詳細規格資料請參照本公司 e-Catalogue 網頁中的機台型錄。或聯系主新德業務部門索取相關資料。
